

# Bona SuperCourt®

Athletic Floor Care System

## Trust the Experts

For nearly 100 years, Bona has been the industry leader in innovative and premium product solutions for hardwood floors. We pride ourselves on our passion for hardwood floors, our heritage, knowledge of the industry and training expertise. As the industry changes and grows, Bona continues to focus on sustainability and our environment, while researching and producing quality products, systems and services that will benefit our customers and hardwood floors. We remain the only company in the industry to offer a complete product line, specifically designed for athletic wood floor systems, including daily maintenance, recoats and full sand & finish.

## Why Choose Bona:

- Dedicated resources, both in facilities and expert personnel, to the research and development of products specifically for athletic wood floors.
- Committed to leading the industry in green solutions, developing and promoting products that meet or exceed governmental standards for the environment.
- Approved MFMA and FIBA products.
- Products protect a majority of NBA and collegiate floors and have been used on the Final Four floors.
- Manufacture proprietary polymers.
- Pioneered the development and use of waterborne finishes and dust-free sanding and continues to formulate safer products and systems.

*We work hard to create products and systems that work together to provide exceptional results for hardwood floors around the world.*

## Bona's Products are Green Seal™ and GREENGUARD Certified

In 2017, Bona received Green Seal certification on both of our SuperCourt® cleaner concentrates for athletic wood floors. These products meet Green Seal Standard GS-37 based on effective performance, concentrated volume, minimized/recycled packaging, and protective limits on VOCs and human and environmental toxicity. Green Seal provides science-based environmental certification standards that are credible, transparent and essential to helping manufacturers, purchasers and consumers make responsible choices that positively impact business behavior and improve quality of life. (GreenSeal.org)

Bona's industry-leading waterborne finishes have always been VOC-compliant and healthier for people and the environment than most other finishes. Along with unsurpassed durability and beauty, our finishes are GREENGUARD Certified for indoor air quality along with Bona cleaners that are also GREENGUARD Gold Certified. (Greenguard.org)

# Meet the Bona JanSan Team

Dave is the **JanSan National Sales & Market Manager**. For over 25 years, Dave has worked in the hardwood industry. He started as a contractor in California and gained first-hand experience on all job types for 15 years, then moved to distribution and has now spent the last 6 years at Bona.

**A note from Dave:** *I truly enjoy working in the JanSan channel, training and working with various people to give them the best in hardwood floors. I have been dedicated to being an expert in this craft and look forward to passing on my experience to others.*

**Dave Posey**  
**dave.posey@bona.com**  
916.826.4856

Zac is the **JanSan Regional Territory Manager - West**. His region covers AZ, CA, UT, NM, NV, OR, ID, TX and WA. He has 10 years of JanSan sales experience working in the education/government sector, and brings over 20 years of experience working with distributors, dealers and big box retail.

**A note from Zac:** *Please feel free to give me a call if you would like to set up a demo, training class or have any troubleshooting questions. I look forward to hearing from you!*

**Zac Haiflich**  
**zac.haiflich@bona.com**  
623.680.2583

Jeff is the **JanSan Regional Territory Manager - Midwest** and has been in the JanSan industry for 30 years. Over this time, he's called on end-users, national accounts and managed a sales staff.

**A note from Jeff:** *Let me put my experience to work helping you grow your gym floor and commercial cleaning business profitably.*

**Jeff Rex**  
**jeff.rex@bona.com**  
720.297.0639

John is the **JanSan Regional Territory Manager - Northeast**. John has over 23 years of K-12 sales experience partnering with all types of school decision makers at the district and school level. His goal is to be a trusted partner with schools and provide exceptional customer service and product knowledge while helping educators make informed buying decisions.

**A note from John:** *Feel free to contact me for gym floor demos and/or questions about how Bona can provide you with the best gym floor system for your schools.*

**John McGrann**  
**john.mcgrann@bona.com**

### Bona® FlexiSand DCS® Buffer

The Bona FlexiSand DCS Buffer's technologically-advanced design is engineered for performance, convenience, durability, unequaled power, superb balance and superior dust pick-up. The new low-deck design combined with the adjustable LED light makes working in hard-to-reach places easier than ever before. Push button activated hydraulic handle is easy to use and is adjustable to meet the needs of any user.

**Key Benefits:**

- Innovative vacuum chamber for superior dust pick-up
- Low deck height for access to toe kicks and other hard-to-reach places
- Floating dust skirt adjust automatically
- Large wheels for easy maneuverability when transporting
- Hydraulically adjustable handle height at the push of a button

# Coatings

## Finishes and Paint

Whether you're looking for shine, color, slip resistance or durability, Bona has the ideal finishing system for all types of hardwood floors. Since the 1970s, we have been the world's pioneer in waterborne finishes, providing low-VOC, solvent-free solutions for every flooring need.

From a rainbow of gameline paints to our premium finishes, the Bona SuperCourt® Finishing System is designed to work as a team to ensure championship beauty, performance and durability for athletic wood floors that take on a vast amount of wear and tear.

On the following pages, you will discover all the finishes you need to create beautiful, durable and easy to maintain athletic wood floors.

## Coatings

### Bona SuperCourt® Waterborne Finishes for Durability and Appearance

Bona SuperCourt® waterborne finishes for athletic wood floors are GREENGUARD Gold Certified and MFMA approved to provide superb durability in one and two-component formulas:

- Virtually odorless
- Fast drying – approximately 2-3 hours
- Nonflammable
- Water clean-up
- MFMA approved
- GREENGUARD Gold Certified
- VOC compliant, including SCAQMD
- Will adhere to most solvent-based and waterborne finishes after proper preparation, drying, and curing times

### Bona SuperCourt® Oil-Modified Finishes for High Gloss and Amber Tone

Bona SuperCourt® oil-modified coatings are high gloss, amber toned finishes that are MFMA approved and ready to protect your athletic wood floor.

- High gloss
- Easy to maintain
- Traditional amber tone
- MFMA approved
- Will adhere to most solvent-based and waterborne finishes after proper preparation, drying, and curing times

† Bona SuperCourt Optum is available through 350 Diversey, Inc. distributors across North America.

All Bona SuperCourt Finishes are **MFMA approved.**

Bona's industry-leading waterborne finishes are **GREENGUARD Gold Certified** for indoor air quality.

## **TIPS** for Bona SuperCourt® Finish Application

---

### **APPLICATION:**

- READ THE LABEL INSTRUCTIONS COMPLETELY BEFORE APPLYING FINISH.
  - Labels provide proper product system sequences, application rates, recommended tools, dry times and compatible products.
- Use a Bona lightweight t-bar for waterborne applications.
- Use a heavyweight t-bar for oil-modified applications.
- Walking speed and applicator pressure will most affect your application rate.
  - Walking slow with added pressure applies finish thinner.
  - Walking faster with just finger-tip pressure applies finish heavier.

---

### **AIR FLOW:**

- During finish application, limit or eliminate air flow.
- Once the first coat of finish has flowed, leveled and tacked off on the surface, move air aggressively across and out of the room.
  - This can be done by setting up fans from doorways blowing into the room (not directly at floor level) and at opposite doorways pulling air out of the room.
- The faster you can remove solvent and/or water vapors from the air, the faster the finish will dry and cure.

---

## TEMPERATURE:

- Job sites need to maintain a consistent temperature during the coating process.
- It must be 50°F degrees or higher at all times.
- Ideal temperature and humidity conditions for paint/finish application are 65°-80°F and 40-60% relative humidity.
- Paint and finish products should be acclimated to these optimal conditions before application. Higher humidity levels will increase dry times.
- It is recommended that the A/C is turned off during application. Exhaust fans can be used once the coat has flowed, leveled and tacked off.

---

## FOR BEST RESULTS:

- After abrasion and before finishing, dry tack with the Bona SuperCourt® Athletic Floor Care Mop and Bona Microfiber Dry Dusting Pad or wet tack with the Bona Microfiber Wet Cleaning Pad.
- Using waterless cleaners or mineral spirits is extremely risky and should never be used for tacking.
- The floor must be 100% dry and clear of any liquid or debris prior to product application.
- Make sure the last coat is dry before applying additional coats.
- **Bona waterborne finishes do NOT need to be abraded for adhesion if the next coat is applied within 48 hours.**  
If 48 hours has passed since the last coat, abrade the floor with a Bona Conditioning Pad (320-grit) or Bona Diamond abrasives (180 or 240-grit).
- Applying oil-modified products without abrasion between coats is not recommended. These products must be freshly abraded between all coats.

## Athletic Floor Care Maintenance

### PREVENTION:

- Place proper walk-off mats in doorways to keep out dirt and grit.
- Install felt pads on tables and chairs used on hardwood floors.
- Avoid excess moisture from tracked in water, leaks, or over-maintenance such as wet mopping.

### DAILY DUSTING & CLEANING:

- Dry dust daily with a Bona Microfiber Dry Dusting Pad to remove dust, grit or other abrasive particles. **DO NOT USE ANY DUST MOP TREATMENTS.** Replace or wash dusting pads as necessary.
- Damp mop all spills or spots with a Bona SuperCourt Microfiber Wet Cleaning Pad dampened with Bona SuperCourt Hardwood Cleaner Concentrate. Dilute at the 1:128 ratio.
- Bona SuperCourt Winter Cleaner can also be used to remove calcium chloride. Dilute at the 1:64 ratio.

### PERIODIC MAINTENANCE:

*(Recommended three times per week, and daily during high traffic/gym use times)*

- Dilute 1 part Bona SuperCourt Hardwood Cleaner Concentrate to 128 ounces of water for a cleaning solution. Tack with a Bona SuperCourt Microfiber Wet Cleaning Pad. Be sure to rinse or wash cleaning pad as necessary. Continued use of a soiled wet tacking pad will cause streaking.
- During winter months, use Bona SuperCourt Winter Cleaner Concentrate to remove salts and calcium chloride tracked in. Tack the floor with a Bona SuperCourt Microfiber Wet Cleaning Pad and be sure to wash after each use.

### SCUFF REMOVAL:

- Shoe marks and scuffs can be removed by using a tennis ball on a stick. Lightly mist diluted Bona SuperCourt Hardwood or Winter Cleaner Concentrate to the area (1:128/1:64), then apply moderate pressure with the tennis ball to safely and effectively remove the mark or scuff.

### AUTO SCRUBBING:

*(Should not be performed on new athletic wood floors)*

- If you choose to use an auto scrubber with Bona Microfiber Scrubbing Pads, dilute 1 part Bona Athletic Floor Care Hardwood Cleaner Concentrate to 128 ounces of water and ensure machine is properly adjusted to remove all cleaner from the floor. No moisture should remain on the floor. Wipe up any remaining moisture with a Bona Microfiber Wet Cleaning Pad. **EXCESS MOISTURE CAN DAMAGE THE WOOD.**
