Detergent Disinfectant Detergente Desinfectante

DESCRIPTION:

Quaternary ammonium sanitizer for sanitizing dishes, glassware, cooking utensils, cutting tools and food processing equipment. For use in food processing, supermarkets, restaurants and institutional kitchens.

Sani-Cide 94 is also an excellent disinfectant for use on floors, walls, countertops, bathing areas, lavatories, tables, chairs, garbage pails and other hard nonporous surfaces. Highly concentrated. 1/4 oz. per gallon dilution. EPA registered.

DIRECTIONS:

SANITIZING: Apply Sani-Cide 94 with a cloth, mop or coarse mechanical spray device or sanitize by immersing articles. Treated surfaces must remain wet with sanitizing solution for minimum of 60 seconds. Drain thoroughly and allow to air dry. Do not rinse.

DESCRIPCIÓN:

Desinfectar para lavado de platos, cristalería, utensilios de cocina, herramientas de corte y equipo de procesamiento de alimentos. Para uso en procesamiento de alimentos, supermercados, restaurantes y cocinas institucionales. Este producto es también un excelente desinfectante para uso en pisos, paredes, encimeras, baños, lavabos, mesas, sillas, cubos de basura y otras superficies duras no porosas. Altamente concentrado. 1/4 onzas por galón de disolución. EPA registrada.

INSTRUCCIONES:

Para desinfección, diluir apropiadamente Sani-Cide 94 y aplique con paño, mopa o spray dispositivo. Las superficies deben permanecer mojadas con la solución durante 1 minuto. Escurrir bien y deje secar al aire. No enjuague.
